

National Library for Public Health e-Newsletter

August 2010

Welcome to the August edition of the [National Library for Public Health](#) newsletter. We are also on Twitter, follow us or get in touch at [@NLPHEngland](#)

The purpose of this newsletter is to highlight new additions to the library and any special pieces of work we have done. We hope you find this useful and would welcome any comments. If you would like to be added or removed from our mailing list, please email library@nepho.org.uk. Please note, due to the volume of emails received for subscriptions, you **will not** receive a confirmation.

Call for experts

Our 2010 Annual Evidence Update on Sexual Health will be published in November this year. The update focuses on HIV/AIDS and behavior change in high-risk populations. If you have expertise in this area of public health and would be interested in collaborating with us, we'd love to hear from you! Our experts work with us on reviewing search strategy, vetting results and providing expert commentary on the evidence. Please contact us with expressions of interest or for further details by emailing library@nepho.org.uk. For reference, the 2009 sexual health update is available to view [here](#).

Consultations

Consultations on a number of public health topics are currently being run. Further details can be found via the link below:

- [Consultation: Alcohol licensing](#) Closes 8 September 2010.
- [Liberating the NHS: Increasing democratic legitimacy in health: Consultation paper](#) Closes 11 October 2010.
- [Transparency in outcomes - a framework for the NHS](#) Closes 11 October 2010.

Events

For a list of new and upcoming events, please see the [Events section below](#).

New additions

We have highlighted items brand new to the collection. If you are interested in a full list of items added in the last month, please visit the [July 2010](#) additions page, otherwise select a topic below for a selection of items. Please note that these links may not work in some email clients.

The library has been developed to provide high quality evidence e-based information on all aspects of public health.

It is designed for those working in the field of public health by providing a single source of access to web based evidence on public health. It is being developed as part of the Department of Health Information and Intelligence Strategy by the North East Public Health Observatory. It replaces the Public Health Electronic Library (PHeL).

The National Library for Public Health does not contain
