e-Newsletter

November
2010

Welcome to the November edition of the [National Library for Public Health](#) newsletter. We are also on Twitter, follow us or get in touch at [@NLPHEngland](#)

The purpose of this newsletter is to highlight new additions to the library and any special pieces of work we have done. We hope you find this useful and would welcome any comments. We are now using mailing list software to manage and maintain our contacts. If you would like to be added or removed from our mailing list, please visit [our mailing list manager](#).

Coming soon...Annual Evidence Update on Sexual Health: HIV/AIDS.

To coincide with World Aids Day on 1st December, we will be publishing our 2010 Annual Evidence Update on *HIV/AIDS - Behaviour change in high-risk populations*. Available from 29th November, this update will identify and contextualise all high-level evidence and guidelines published in the last 12 months on behaviour change interventions in high-risk populations including ethnic minorities, gay men, injecting drug users, commercial sex workers, and other populations. This year, we have teamed up with several experts in the field of sexual health to evaluate the evidence. Find out more by visiting <http://www.library.nhs.uk/PUBLICHEALTH/>

Events

For a list of new and upcoming events, please see the [Events section below](#).

The library has been developed to provide high quality evidence e-based information on all aspects of public health.

It is designed for those working in the field of public health by providing a single source of access to web based evidence on public health. It is being developed as part of the Department of Health Information and Intelligence Strategy by the North East Public Health Observatory. It replaces the Public Health Electronic Library (PHeL).
