

Health Impacts Reviews

Health Impacts of the Built Environment

Health Impacts of Transport

Road traffic injuries
Air pollution
Noise pollution
Physical activity
Effects on community
Social inclusion

A suite of review documents produced by the Institute of Public Health in Ireland to illustrate how health is influenced by social, economic and environmental factors.

Each review provides clearly interpretable, easily accessible information to help inform debate about the links to public health and provide a useful resource for those working to influence public policy in favour of health.
