

Challenges and Opportunities

- Leading and managing the strategy
- Workforce development 'using intelligent information intelligently'
- Knowing our population, knowing our business
- Consumer-driven world - publicly accessible information
- Culture of openness, transparency, accountability and learning

Challenges

- Excellent practices – opportunity to share
- Success of other sectors within Ireland
- International learning
- International connections and networking

- To enable the workforce, citizens and the system to drive the quality agenda with knowledge

Collaboration

- Institute of Public Health
- Safe Food – Food Safety Promotions Board
- Cancer networking
- Information exchange and general networking

All-Ireland Health Intelligence Collaboration

- North - South organisational developments
- 'European Healthcare'
 - Organisation for Economic Co-operation and Development (OECD)
 - Inter-operability agenda
- 'Global Healthcare'
 - World Health Organisation - Global Patient Safety Alliance, international health surveillance
- Internet – consumer-driven health intelligence

Changing Terrain

Data

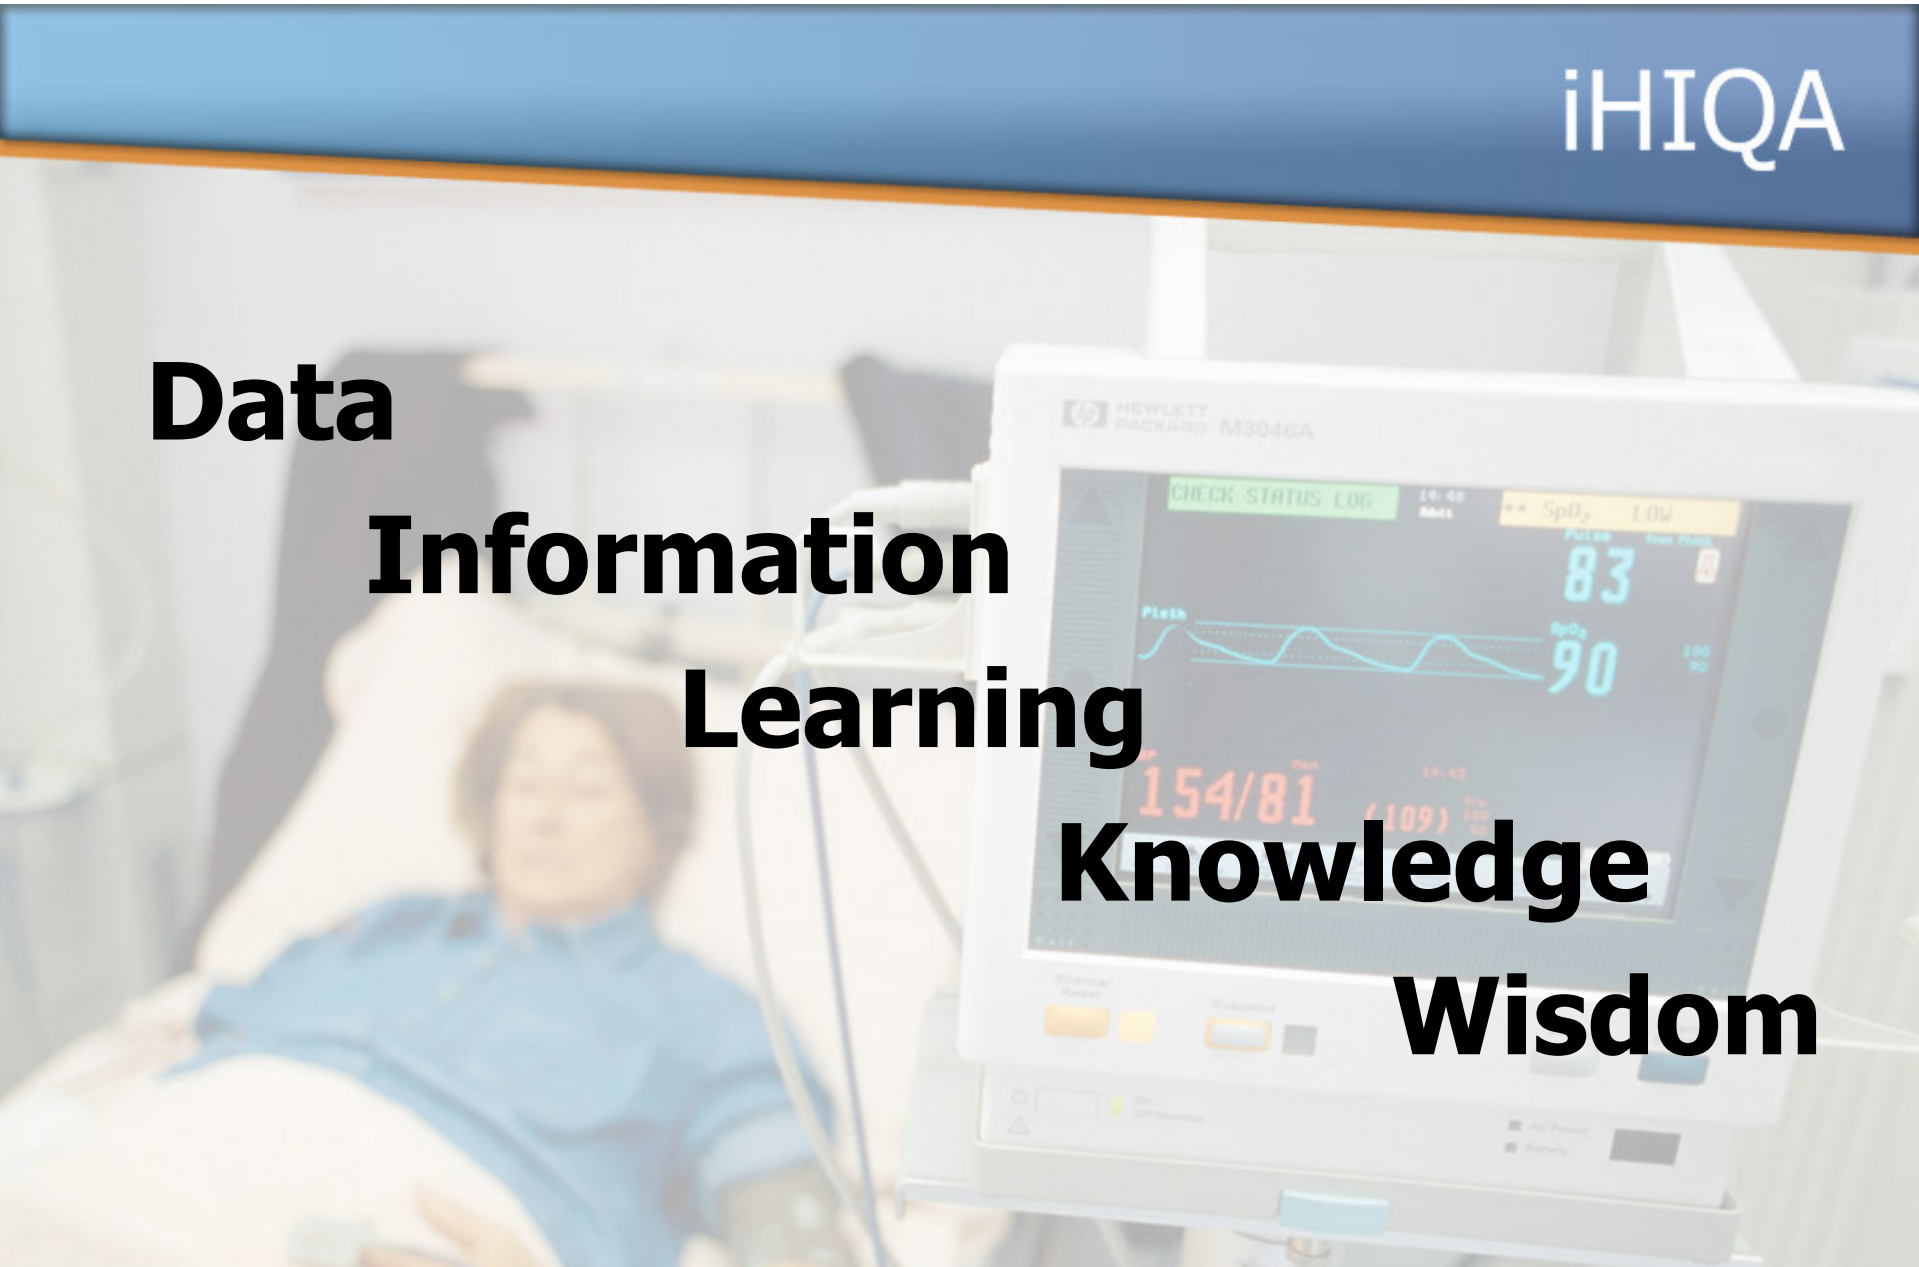

Information

Learning

Knowledge

Wisdom

So, what is health intelligence?

Enabling Intelligent Healthcare Systems

Thank You
