

# “STEPPING TOWARDS BETTER DECISION-MAKING IN HEALTH”

## ... THE NEXT STEPS

# OUR ASPIRATION

We wanted to stimulate and support the formal development of a more comprehensive all-Ireland health data inventory

# SOME THINGS TO BE DONE

- Identifying data sources
- Documenting data sources
  - Metadata elements
  - Data elements
- Increasing awareness (and access)
- Identifying data gaps and other quality issues
- Development and maintenance of information standards –
  - metadata / data
- Information governance

# HOW SHOULD THEY BE DONE?

- Who?
- Where to start?
- Building on what's there
- Structures and processes
- Collaboration
- Access to data?
- *What about analysis, interpretation and use?*

# HOW SHOULD THEY BE DONE?

- Who?
  - Role of HIQA
- Where to start?
  - Priorities
- Building on what's there
  - Part 1 / AleHL
  - CSO “Statistics Central”
  - Irish Social Sciences Data Archive
- Structures and processes
- Collaboration
  - Sharing the credit
  - Roles and responsibilities
- Access to data

*What about analysis, interpretation and use ??????*
